NANDHANA K S

Cybersecurity Professional | Offensive & Defensive Security

Thrissur, Kerala, India | +91 9072221640 | nandhanaks321@gmail.com

LinkedIn | GitHub | Portfolio

Professional Summary

Cybersecurity professional with hands-on exposure to offensive and defensive security, penetration testing, web/API security, network security, Active Directory, Android security, SOC operations, SIEM, threat intelligence, and digital forensics. Experienced in building practical security labs, vulnerable applications, SOC workflows, security platforms, and Python-based automation. Strong foundation in Linux, Kali Linux, security monitoring, vulnerability assessment, malware analysis, and cybersecurity operations.

Technical Skills

Cybersecurity: Penetration Testing, VAPT, Web Security, API Security, Network Security, Vulnerability Assessment, OWASP Top 10, Authentication & Authorization, Security Testing
SOC & Defensive Security: SOC Operations, Security Monitoring, SIEM, Alert Triage, Incident Response, Threat Intelligence, IOC Analysis, Log Analysis, Wazuh, Splunk, MITRE ATT&CK
Systems & Identity: Linux, Kali Linux, Windows, Active Directory Security, Microsoft Entra ID, IAM, Networking Fundamentals, TCP/IP, DNS, HTTP/HTTPS
Application & Mobile Security: Android Application Security, Android Pentesting, APK Analysis, Mobile Security, REST APIs, JWT, Session Security
Security Tools: Burp Suite, Nmap, Wireshark, Metasploit, Nessus, SQLmap, Nikto, OpenVAS, MobSF, JADX, Frida, ADB
Digital Forensics & Malware: Digital Forensics, Malware Analysis, Static Analysis, Dynamic Analysis, Sandbox Analysis, Indicators of Compromise
Programming & Development: Python, Flask, FastAPI, REST APIs, React, SQLite, Git, GitHub, Docker

Professional Experience

Offenso Hackers Academy **September 2025 – Present**
Cybersecurity Researcher & Trainer *Calicut, Kerala*

- Conduct practical cybersecurity work across penetration testing, web/API security, Active Directory, Android security, SOC operations, SIEM, threat intelligence, and security testing.
- Design and develop practical security labs, CTF challenges, attack-defense scenarios, vulnerable applications, and hands-on cybersecurity exercises.
- Deliver practical sessions covering penetration testing, VAPT, web/API security, AD security, Android security, SOC operations, SIEM, threat intelligence, and security tools.
- Develop Python-based automation, security platforms, threat-intelligence workflows, and controlled environments for practical security analysis.
- Mentored 70+ students, delivered technical presentations and hands-on sessions, and received a Best Trainer of the Month recognition.

Kerala Police Academy **January 2025**
Cybersecurity Intern – 15-Day Internship *Kerala*

- Performed static and dynamic malware analysis using sandbox-based techniques to investigate malware behavior and indicators of compromise.
- Completed a practical project on Malware Analysis Using Sandbox Technology.

Selected Projects

VEYLANCE – SOC Security Platform *FastAPI / React / SQLite / WebSocket*

- Developed a SOC-focused security platform supporting security log ingestion, alert simulation, investigation workflows, incident tracking, analysis, and reporting to provide a practical SOC learning environment.

Threat Intelligence Aggregator *Python / VirusTotal / AbuseIPDB / Shodan*

- Built an automated IOC enrichment workflow integrating multiple threat-intelligence sources to support threat analysis and security operations.

MODUS – Cybersecurity Learning Platform *React / Flask / SQLite / JWT*

- Developed an interactive cybersecurity platform integrating security labs, CTF challenges, Linux practice, assessments, analytics, and structured learning modules.

Education

Indira Gandhi National Open University (IGNOU) *Pursuing*
Master of Computer Applications (MCA)
Bharathiar University *2025*
B.Sc. Digital & Cyber Forensic Science **CGPA: 8.3/10**

Certifications

Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)
Palo Alto Networks: Security Operations Fundamentals
EC-Council: Ethical Hacking Essentials (EHE)
EC-Council: Network Defense Essentials (NDE)
EC-Council: Digital Forensics Essentials (DFE)
Cisco Networking Academy: Introduction to Cybersecurity
